

## INTERNSHIP OPPORTUNITIES

### ARTIFACTS COLLECTION INTERN

The Historical Society of Harford County, Inc. receives an amazing array of objects that tell the story of the county and its residents in a very unique way. These range from military uniforms, signs, business and political memorabilia, wedding gowns, trousseaus to farm equipment. The successful applicant(s) would be responsible for cataloging, inventorying and accessioning these items, some dating back centuries and to assure they are stored according to current preservation standards.

For more information, please contact the Historical Society of Harford County, Inc. at 410-838-7691 or submit questions to Jacob Bensen ([adm@harfordhistory.org](mailto:adm@harfordhistory.org)). **This is an unpaid internship.** However, the Society offers flexible work hours and an internship designed to match your interests and skills while providing valuable work experience and contacts.

The Historical Society of Harford County Inc., founded in 1885, collects and preserves the documents, materials and artifacts that tell the story of the people and events that form the history of the county and its citizens. These stories are shared in many ways through events, publications and research assistance. This is a major undertaking, but extremely worthwhile and rewarding.
